Dated 15th June 1921.

Resolution.

In the programme of famine relief works for the Sandur state for 1921-22 provision is made for 386,672 units which will afford employment to 20 per cent of the population for 4.6 months. The provision falls short of the prescribed minimum and the Board is glad to note that the Darbar has taken steps to expand the programme by the addition of fresh works

2. The programme consists entirely of sanctioned works

of which about three fourths are road works and the rest miscellaneous works. Village works predominate and represent 69 per cent of the total provision. An abstract of the programme is appended to these proceedings.

he Political Agent has certified that the programme is in such a condition as to allow of test or relief works being opened immediately should necessity arise, and that the estimates for all the sanctioned works have been brought up to date

4. The population of the State is shown as 11,686 in the tract of the programme while it is 13,526 according to the census of 1911. The latter figure has been adopted for the purpose of the Board's review.

5. A copy of the review will be submitted to Government with reference to Rule III of the rules appended to G.O. No.441 Revenue dated 12th February 1913
